What are some problems people have that you might be able to solve?

Lack of transportation (where, what type, for whom, when, why?)

Waste removal and garbage disposal (be specific)

Access to fresh or packaged foods grown in Africa (what foods, where, who?)

Lack of education for children (where, why, who?)

Lack of affordable housing (where, why, who?)

Lack of education for children (where, why, who?)

Lack of affordable housing (where, why, who?)

Which of these problems can be solved by starting small... because the solution requires only a little money and only one person working in the business?

Example: I know 4 corn farmers who need help getting their harvest to the mill.

I know the manager of an office building that might need someone to clean it, empty the trash, or run a food cart so workers can buy lunch.

I know the owner of a construction company that needs someone to haul away metal scraps that can be recycled.

My family has land, but lacks money for animals

What do you do better than other people (special skills or knowledge)?

Speak other languages

Skilled with music, art, math

Are you good at teaching others?

Are you good with children?

Are you good at writing or speaking?

Are you good at sales?

What resources do you already have?

Land

Vehicle (car, motorcycle, bicycle)

Relationship with successful people or business owners

Equipment you could rent to customers or use in a business

Tools

Computer

What is your best idea for a product or service that solves a problem using your resources and skills?

Frozen foods shop

Childcare service

Laundry service

Sharing economy (Uber, Air BnB)

Grocery delivery

Pest control for businesses or farms

Building web pages for local businesses who do not have a good online presence.

Farming fresh vegetables

Food cart

Cleaning offices or business locations

Tutoring or teaching school age children

Renting equipment to customers

Delivery services for restaurants
